

Make Simple Changes In Your Home To Help Save Energy This Season

Cooler weather is right around the corner, which can lead to an increase in natural gas usage.

Complete our secure My Energy Profile survey to get a no-cost household energy analysis, personalized tips, and rebate recommendations to help reduce your home energy usage.

Follow these easy steps to savings:

Register or log in to your secure **My Account** portal by visiting: socialgas.com/MEP. You will be taken directly to the My Energy Profile survey.

Complete the My Energy Profile survey with questions about your home heating, appliances, and more.

When you've completed the survey, you will be presented with savings tips and rebates for your home based on input from your survey results.

We are committed to helping our customers save energy!
